Dear Colleague,

As the year comes to a close and the holiday season gets in full swing, thinking of others and giving are the tradition; 'tis the season of giving'. Why should I give to SOTO-USA? There are many reasons, but several stand out over the last year.

"When my state board audited my CE credit hours, I was not able to find all my copies of the verifications. Things got a little tense with the board threatening me. You were so helpful providing documentation of attendance as well as expediting the schools response to the board. It all turned out OK but without your help things were looking scary. Thanks SOTO-USA"

"You were so helpful when I was being denied payment for SOT services provided to a patient with the explanation that the service was "experimental" and "not standard chiropractic care". Providing a letter of justification and standards with literature citations put the insurance company on notice and payments soon began without interruption. Thank you SOTO-USA for helping."

Friends this is why we give to SOTO-USA - the organization that works to improve the image of SOT within our profession, advance the understanding of SOT in the interdisciplinary community and promote co-treatment protocols and be of personal service to you the doctor.

The membership dues pays only 71% of the operating expenses and the rest of the budget is earned from the chase to make profit from seminars and book and product sales. There are many programs we would and could pursue if we had the financial flexibility to consider them. At this time of giving thanks and remembering others, it is good to remember the many blessings we all have and included in our blessings, is our membership in an organization that is proactive and supportive throughout the year. A gift to SOTO-USA has a direct return to you in our continued ability to serve and unlike many gifts given during this season, this is tax deductible!

Sincerely,

Robert D. Klingensmith, DC, DAAPM
